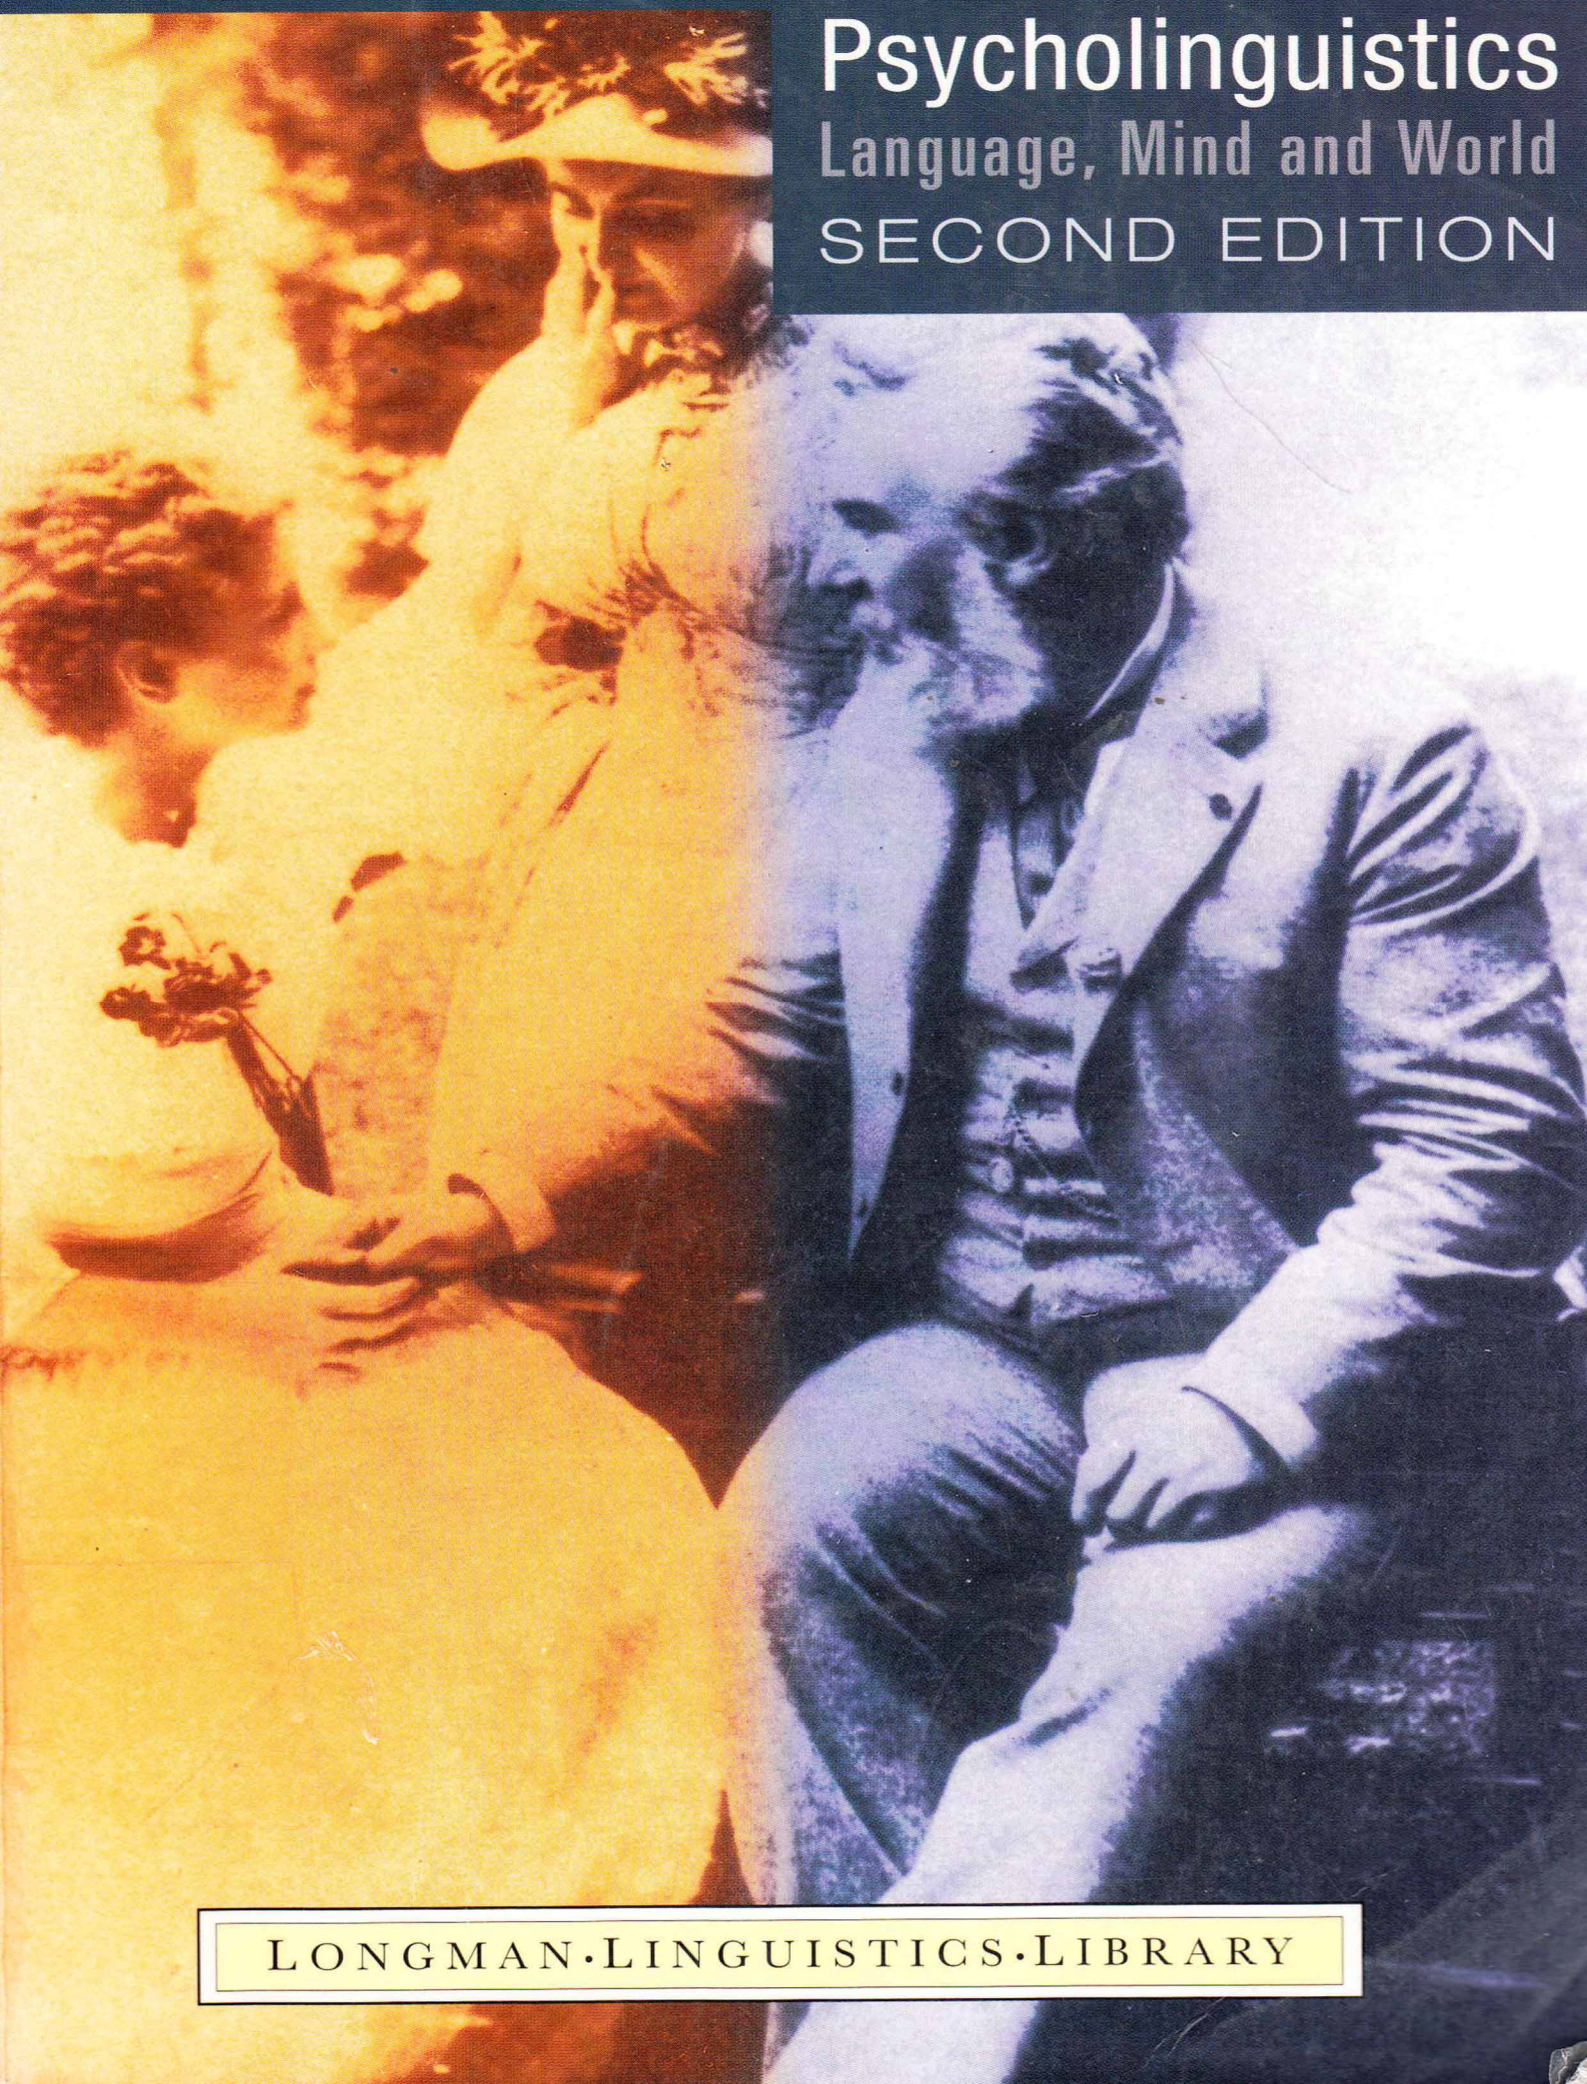
Psycholinguistics

Language, Mind and World

SECOND EDITION



LONGMAN·LINGUISTICS·LIBRARY

Contents

Preface xv
List of Tables xvii
List of Figures xviii
Publisher's Acknowledgements xix

Part 1. **First-Language Learning** 1

Chapter 1. How Children Learn Language 3

1.1. The Development of Speech Production 3
1.2. The Development of Speech Comprehension 27
1.3. The Relationship of Speech Production, Speech Comprehension and Thought 34
1.4. Parentese and Baby Talk 36
1.5. Imitation, Rule Learning, and Correction 41
1.6. Learning Abstract Words 44
1.7. Memory and Logic in Language Learning 46

Chapter 2. The Deaf and Language: Sign, Oral, Written 50

2.1. Sign Language: A True Language without Speech 50
2.2. Gestures of Hearing People Are Signs But Do Not Form a Language 52
2.3. Speech-Based Sign Languages 56
2.4. Independent Sign Languages (ISLs) such as American Sign Language (ASL) 60
2.5. The Process of Learning ASL 64
2.6. The Oral Approach and Total Communication 65

2.7. The Sign Language vs. Oral Approach Controversy 67
2.8. Public Recognition of ASL and Growth of Deaf Pride 70
2.9. The Written Language Bilingual Approach for Complete Communication 75
2.10. A Programme for Teaching Written Language 80

Chapter 3. Reading Principles and Teaching 93

3.1. Writing Systems and Speech 93
3.2. The Whole-Word vs. Phonics/Decoding Controversy 96
3.3. The Whole-Word Approach 97
3.4. The Phonics/Decoding Approach 98
3.5. More on the Whole-Word Approach 102
3.6. A Universal Four-Phase Reading Programme 111
3.7. Results of the Reading Programme in the United States, Japan and China: In the Pre-school and in the Home 114
3.8. The Fallacious Notion of Reading Readiness 118
3.9. The Advantages of Early Reading for Pre-school Age Children 122

Chapter 4. Wild and Isolated Children and the Critical Age Issue for Language Learning 124

4.1. Legends, Evil Kings and Emperors 124
4.2. Victor: The Wild Boy of Aveyron 127
4.3. Genie: Raised in Isolation 131
4.4. Isabelle: Confinement with a Mute Mother 135
4.5. Chelsea: A Tragic Case of Misdiagnosis 137
4.6. Helen Keller: The Renowned Deaf and Blind Girl 138
4.7. A Critical Age for First-Language Acquisition? 140

Chapter 5. Animals and Language Learning 144

5.1. Teaching Speech to Apes 145
5.2. Teaching Sign Language to the Chimpanzee, Gorilla and Orangutan 147
5.3. Teaching Artificial Languages to Chimpanzees 152
5.4. Teaching Language to Dolphins 156
5.5. Teaching Spoken English to an African Grey Parrot 159
5.6. Animal Communication in the Wild 160

5.7. Conclusions 162
5.8. Web Sites for More Information 165

Part 2. Second-Language Learning 167

Chapter 6. Children and Adults in Second-Language Learning 169

6.1. Children are Better: A Common Belief 169
6.2. Basic Psychological Factors Affecting Second-Language Learning 170
6.3. Social Situations Affecting Second-Language Learning 178
6.4. Conclusion: Who is Better? Adults or Children? 184
6.5. Some Other Influences: ESL or EFL Community Context, Motivation, and Attitude 185
6.6. Is There a Critical Age for Second-Language Learning? 187

Chapter 7. Second-Language Teaching Methods 190

7.1. Characterizing the Essentials of Methods 190
7.2. Traditional Methods: Grammar-Translation, Natural, Direct, Audiolingual 193
7.3. The Chomskyan Revolution Brings Down the Foundations of the Audiolingual Method 201
7.4. Offbeat Methods Appear then Disappear: Cognitive Code, Community Language Learning, Silent Way, Suggestopedia 202
7.5. Contemporary Methods: Total Physical Response, Communicative Language Teaching, Natural Approach 206
7.6. Some Research Studies Comparing Effectiveness of Methods 214
7.7. Goals Must Be Considered in the Selection of a Method 216

Chapter 8. Bilingualism, Cognition, Transfer and Learning Strategies 218

8.1. Varieties of Bilingualism 218
8.2. Is Bilingualism Beneficial or Detrimental? 219

8.3. Sequential and Simultaneous Learning Situations 228
8.4. Transfer Effects of Language 1 on the Learning of Language 2 233
8.5. Strategies for Second-Language Production 236
8.6. Strategies for Becoming a Better Second-Language Learner 238
8.7. Teaching Reading in a Bilingual Situation at Home 238

Part 3. Language, Mind and Brain 241

Chapter 9. Language, Thought and Culture 243

9.1. A Relationship at the Heart of Psycholinguistics 243
9.2. Four Theories Regarding the Dependence of Thought and Culture on Language 245
9.3. Theory 1: Speech is Essential for Thought 246
9.4. Theory 2: Language is Essential for Thought 251
9.5. Theory 3: Language Determines or Shapes Our Perception of Nature 255
9.6. Theory 4: Language Determines or Shapes Our Cultural World View 261
9.7. Erroneous Beliefs Underlying the Four Theories 266
9.8. The Best Theory, Part 1: Thought is Independent of Language 269
9.9. The Best Theory, Part 2: Language *Can* Assist in Conveying New Ideas and Culture 271
9.10. John Locke Said It Best 275

Chapter 10. Where Does Language Knowledge Come From? Intelligence, Innate Language Ideas, Behaviour? 276

10.1. How Do We Acquire Knowledge? 276
10.2. Mentalism vs. Materialism 277
10.3. Behaviourist Wars: Materialism vs. Epiphenomenalism vs. Mediationism 280
10.4. Objections to Behaviourism 282
10.5. Philosophical Functionalism and Our Objections to It 285
10.6. Mentalist Wars: Empiricism's Intelligence vs. Rationalism's Innate Ideas 288

10.7. Chomskyan Arguments for Innate Language Ideas and the Inadequacy of those Arguments 291
10.8. It is Time for Emergentism to Re-emerge 307

Chapter 11. Language and the Brain 309

11.1. General Brain Structure and Function 309
11.2. Hemispheric Structure and Function 313
11.3. Hemispheric Dominance 314
11.4. Lateralized Hemispheric Functioning 318
11.5. Language Areas and their Functioning 321
11.6. Right-Hemisphere Language Abilities 324
11.7. The Bilingual Brain 327
11.8. Sign Language 330
11.9. Language Disorders: Aphasias 332
11.10. Methods of Investigating Brain and Language 338

Part 4. **Mental Grammar and Language Processing** 343

Chapter 12. Language Criteria for Assessing Grammars 345

12.1. Four Fundamental Language Abilities of Speakers 345
12.2. Explaining the Four Abilities with Behaviourist, Psychological and Structural Linguistic Theories 347
12.3. Explaining the Four Abilities with Chomsky's Generative Rule System 355
12.4. Two Other Fundamental Abilities: Sentence Synonymy and Structural Ambiguity 360
12.5. Conclusion 364

Chapter 13. Natural Grammar: A 'God's Truth' Grammar Based on the Primacy of Speech Comprehension 366

13.1. Psychological Criteria for Assessing Grammars 366
13.2. Psychological Criterion No. 1: A 'God's Truth' Grammar 366
13.3. The Explanatory Inadequacy of Chomsky's Syntactic-Based Grammar 372
13.4. Performance-Process Grammars 375
13.5. Psychological Criterion No. 2: Primacy of Speech Comprehension 378

13.6. Inadequacy of Functionalist and Cognitive Grammars 381
13.7. How the Child Learns a Natural Grammar 381
13.8. Towards a Theory of Natural Grammar in Relation to Thought and its Functioning in the Comprehension and Production of Sentences 392
